

Greenway
Fire Solution

Greenway **Fire Solution**

WE ENSURE COMPLETE FIRE SAFETY

ABOUT US

We have been established as a fire safety Industries. We offers total solutions in fire detection, fire alarm, fire extinguishing systems, Fire Hydrants & Fire Sprinkler for the protection of entire range of industries and applications such as a refineries, Power plants, Institutions, hotels, restaurants, high rise buildings, shopping malls, complex, etc.

SERVICE WHAT WE OFFER

KNOW SAFETY NO FIRE

Also we offer wide range of consultancy services in the field of fire safety and fire protection engineering these includes General fire engineering, fire survey audits Design and consultancy of fire protection systems as per NBC, NFPA and other relevant standards.

OUR MISSION

We committed to the zero-fire incident in India by providing the best service in fire safety.

OUR VISION

To provide and ensure complete fire safety for a safe and secure environment

OUR QUALITIES

- Well Qualified and Educated staff and Technician.
- Sustainability in our services.
- We Maintain Integrity for improving Service and Relationship with Clients.
- Team Work increases the individual's strength of team members to bring their best.
- Dedication towards continuous Improvement.

Fire Hydrants Systems :

1. Design and installation of fire pump house
2. Fire hydrant stand post
3. Water and foam monitors
4. Foam chambers
5. Dry and wet risers
6. Hose reel hose

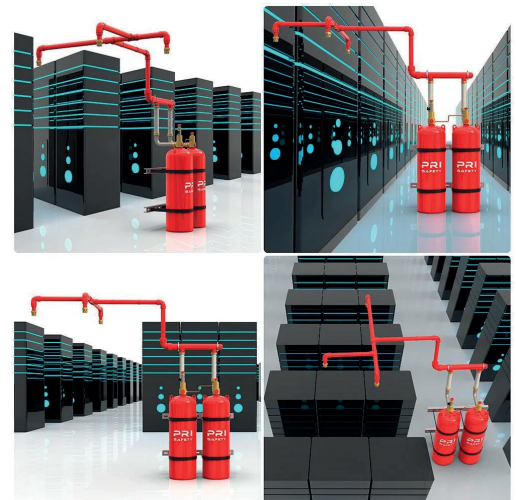

Sprinkler System :

1. Medium & high velocity water spray systems for commercial & industrial projects
2. Emulsifier systems for transformers
3. Water mist systems for paint booths
4. Sprinkler systems for warehouse and basements

FM-200/NOVEC-1230 (FK-5-1-12) FIRE SUPPRESSION SYSTEM

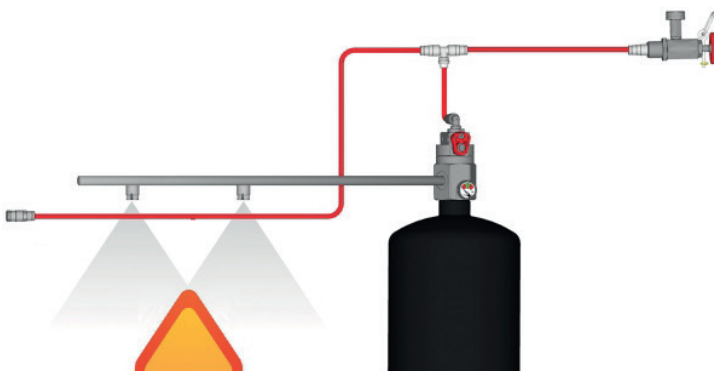

1. Fast within seconds, Clean agent penetrates the entire hazard areas to smother the combustion
2. Environmentally friendly & Clean agent exists as a gas in the earth's atmosphere and is one of the by products of combustion. It's use has no environmental impact.
3. Non damaging Clean agent dose not cause spoilage, requires no clean up and leaves no residue.
4. Non conductive Clean agent is electrically non conductive, allowing use for a wide variety of special applications.
5. Adaptive Clean agent is effective on wide range of flammable and combustible materials

Automatic Fire Suppression Systems :

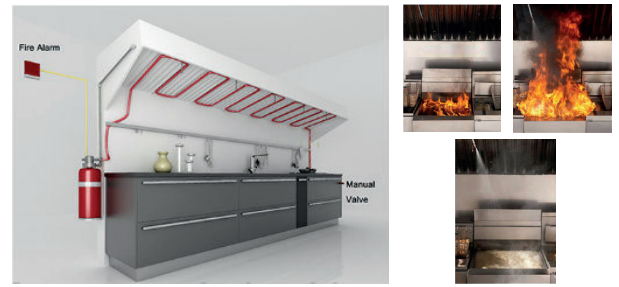

System configuration :

1. Fire sense tube for detection.
2. Fire extinguisher cylinder with automatic valve assemble.
3. Clean agent fire fighting gas.
4. Control panel.
5. Audio alarm.
6. Pressure switch.

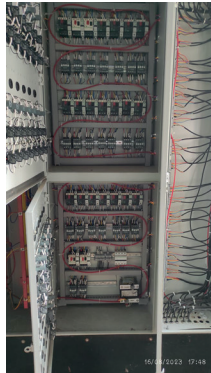

Kitchen Suppression System

Kitchen suppression is an automatic wet chemical extinguishing system designed to protect equipment, life and property. Industrial kitchens are a major source of fires and these suppression systems counteract that.

DLP (Direct Low Pressure) System

Automated DLP (Direct Low Pressure) fire systems are essential in protecting electrical control rooms from potential fire hazards. These systems use advanced technology to detect and suppress fires before they can cause significant damage to sensitive equipment and data.

01

Suppression Agent Cylinder

02

Cylinder Valve with Pressure gauge

03

Flexible Detection Tubing

04

Optional Pressure Switch to Connect to Sounder Beacon or Monitoring Device

Co 2 Total flooding system

CO₂ at atmospheric pressure is a colourless, odourless and electrically Non-Conductive inert gas. It has high expansion ratio, which facilitates rapid discharge and allows three dimensional quick penetrations in the entire hazard area. Made from premium components, this CO₂ Gas Flooding System's importance lies in the fact that it has high efficiency to extinguish fire by reducing the oxygen content of the protected area below the point where it can support combustion. This CO₂ Gas Flooding System provides a blanket of heavy gas that reduces the oxygen content of the atmosphere to a point where combustion is not sustainable.

VARIOUS TYPES OF FIRE EXTINGUISHERS

All types of fire extinguishers sales, service, AMC & refilling can be done.

FIRE EXTINGUISHERS WE PROVIDE :

Water Type Extinguisher

Foam Type Extinguisher

DCP Type Extinguisher

Co₂ Type Extinguisher

Fire detection & alarm systems :

1. Smoke, flame and gas detection systems.
2. Beam detector systems.
3. Conventional and addressable fire alarm systems.
4. Fire alarm control panels.
5. Hybrid fire alarm system
6. Heat sensing cables.

Training program :

1. Risk management & identifying fire hazards.
2. Basic fire prevention & fire fighting.
3. Induction training on basic fire fighting.
4. Evacuation mock drill.
5. Hydrant operation & rescue techniques.
6. Electrical emergency preparedness.
7. Fire safety for electrical fires.

01

Public address systems :

We facilitate public address system to commercial segment which helps in reinforcing sound. These user friendly systems are easy to install, operate and maintain and are offered with comprehensive warranties and after sale services. Further, these systems are highly appreciated by our clients for crystal clear sound and high durability. Available in various sizes, these can also be custom made as per the client's specific requirements.

02

Fire diesel pumps :

We are instrumental in offering our clients fire diesel pumps, which is sturdy in construction and easy to maintain. The controller monitors, displays and records fire pump system information, thus is highly recommended by the clients worldwide. Further, these fire diesel pumps are reckoned for long functional life and wear & tear resistance, these are in compliance with international quality standards.

03

Fire electrical pumps :

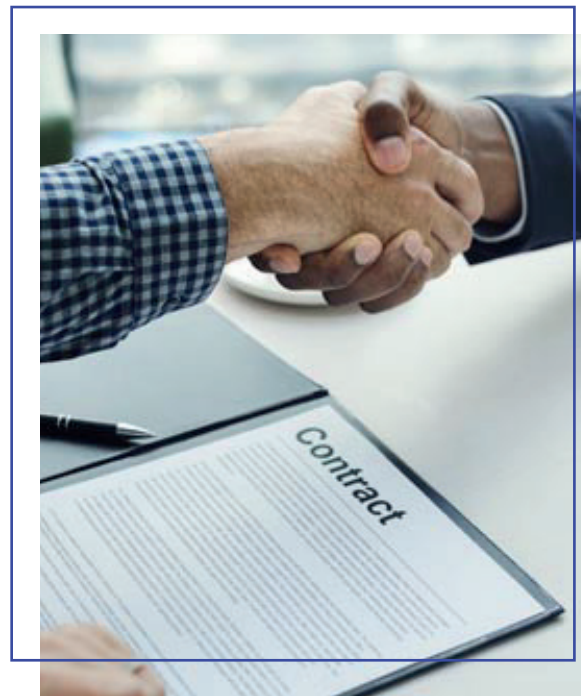

We are instrumental in offering our clients fire diesel pumps, which is sturdy in construction and easy to maintain. The controller monitors, displays and records fire pump system information, thus is highly recommended by the clients worldwide. Further, these fire electrical pumps are reckoned for long functional life and wear & tear resistance, these are in compliance with international quality standards.

ANNUAL MAINTENANCE CONTRACT (AMC)

- Reduced risk of failure of equipment when the need arises - saving your investments and your business.
- Extended life from your equipment due to preventive maintenance visits.
- Compliance with local fire office and insurance company requirements.

We offer a single maintenance contract for all fire safety equipments. Systems installed in your premises portable fire extinguishers, automatic fire alarm systems, water based fire fighting system, gas based automatic flooding systems, emergency lighting, emergency evacuation signages etc. We undertake maintenance of all type of fire protection systems.

- Fire hydrants
- Fire pump house
- Fire extinguishers
- Fire alarm and detection systems

OUR CLIENTS

LogicMo System Pvt Ltd

BASF chemetall India Private Limited

DYANAPAC ROAD CONSTRUCTION EQUIPMENT INDIA PVT LTD

Valeo India Pvt Ltd

L'OREAL India Pvt Ltd

UNO MINDA RINDER DIVISION

Sandvik Company

Ask Chemical

KSPG Automotive India Pvt Ltd

Dura Automotive Systems

SM Auto Engineering Pvt Ltd

Unbox Robotics

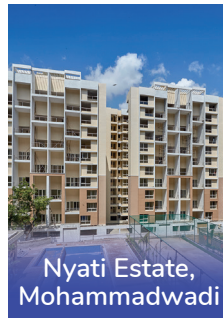

Hi Tech Biosciences India Pvt Ltd

Our Residential Clients

Gera Trinity, Kharadi

Nyati Estate, Mohammadwadi

Anshul Eva Society, Bavdhan

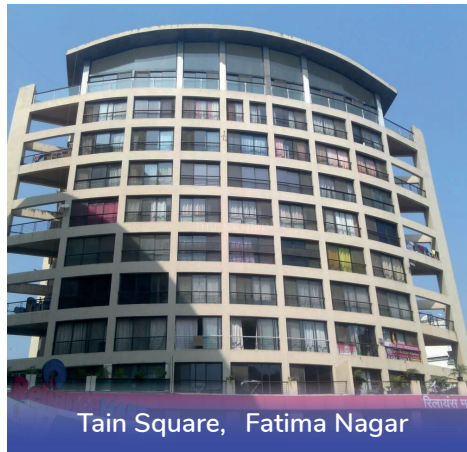

Gulmohar Primrose, Wagholi

33 Milestone, Wakad

Fiesta, Baner

Tain Square, Fatima Nagar

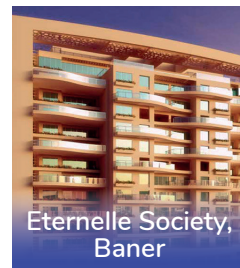

Harit Shilp, Rahatani

Royal Oak, Wakad

Divine Dew, Rahatani

Eternelle Society, Baner

Runwal Sankalp, Kothrud
